

MINISTER PROCLAIMS WOMEN'S INSTITUTE WEEK

Charlene Johnson, Minister Responsible for the Status of Women, proclaimed upcoming week February 19th – February 25th as Women's Institute Week. The minister met with several board members of the Newfoundland and Labrador Women's Institute on February 13th, including Jean Budden, the organizations Provincial President, and discussed both past and present projects that the NLWI actively promotes. The organization, a partner of the Newfoundland and Labrador Environmental Awards and Tidy Towns Programs, gives women opportunities to participate in activities that create benefits to themselves, their families and their communities at large. Members in 35 branches across the province will be celebrating WI Week through various activities including open houses, displays and demonstrations. Please support activities which may be taking place in your area.
